Assessment | When do formal assessments take place?

Year 7

Subject	Assessment window 1: W/c 02/10/2025	Assessment window 2: W/C 09/03/2026	Assessment window 3:W/C 15/06/2026	What can I use to help with revision?
	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	
	Students will be assessed on their application of the geographical skills such as latitude and longitude, grid references, compass points, contour lines etc.	Students will be assessed on the UKs landscape, this will cover river, coastal and glacial landscapes.	Students will be completing the end of year assessment. Students will need to know the key terms and definitions from the year. They will also be asked questions which are taken from each topic.	<ul style="list-style-type: none">• Revision lessons will be available in the assessment folder• Knowledge Organiser

Assessment | When do formal assessments take place?

Year 8

Subject	Assessment window 1:W/C 03/11/2025	Assessment window 2: W/C 09/02/2026	Assessment window 3:W/C 11/05/2026	What can I use to help with revision?
	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	
	Students will be assessed on tropical rainforests and the first part of their climate change topic. They will be assessed on all of rainforests and the link to climate change such as the impacts of deforestation, CO2 in the atmosphere and Global Atmospheric Circulation.	Students will need to know the knowledge gained throughout their development topic as the assessment will assess them only on what they learned in this topic.	Students will be completing the end of year assessment. Students will need to know the key terms and definitions from the year. They will also be asked questions which are taken from each topic.	<ul style="list-style-type: none">• Revision lessons will be available in the assessment folder• Knowledge Organiser

Assessment | When do formal assessments take place?

Year 9

Subject	Assessment window 1:W/C 13/10/2025	Assessment window 2: W/C 05/01/2026	Assessment window 3:W/C 01/06/2026	What can I use to help with revision?
	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	
	Weather Hazards – Students will need to learn how tropical storms form and their features. Students will need to know the effects and responses to a case study and be able to explain the impacts and responses to them. Students will also need to know how the effects can be reduced.	Tectonic Hazards – Students will need to learn how tectonic hazards are formed at plate margins, the effects and responses to an earthquake and how the effects can be managed. Students will also need to know why people live in areas at risk of tectonic hazards.	Students will complete the Coop trust assessment and therefore will need to remember your human and physical geography skills that you have picked up throughout the last 3 years. There is also a pre-release booklet attached to the assessment which will need to be learned.	<ul style="list-style-type: none">• Revision lessons will be available in the assessment folder• Knowledge Organiser• Pre-release booklet

Assessment | When do formal assessments take place?

Year 10

Subject	Assessment window 1: W/C 17/11/2025	Assessment window 2: W/C 23/02/2026	Assessment window 3: W/C 18/05/2025 - 08/06/2025	What can I use to help with revision?
	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	What do I need to know to be a knowledge expert for my assessment?	
	You will need to learn about your tectonic hazards/weather hazards. How processes create features at particular margins, the effects/responses to natural hazards and how these can be managed. You will also need to include case studies.	Students will need to know about different ecosystems such as hot deserts and tropical rainforests. The causes, effects and management of deforestation in the tropical rainforest. They will also need to know how plants and animals have adapted to the environment. Students should also be able to explain the challenges that arise from living in a hot desert.	Students will complete a full paper 1 mock, therefore they should know everything they have learned throughout the whole course, covering these topics, 1A: Natural Hazards, 1B: Living world and 1C: Coastal and River landscapes in the UK	<ul style="list-style-type: none">• Revision lessons will be available in the assessment folder• Knowledge Organiser

Assessment | When do formal assessments take place?

Year 11

Subject	<p>Assessment window 1: 03/11/2025 - 17/11/2025</p> <p>What do I need to know to be a knowledge expert for my assessment?</p>	<p>Assessment window 2: 02/02/2026 - 23/02/2026</p> <p>What do I need to know to be a knowledge expert for my assessment?</p>	<p>What can I use to help with revision?</p>
	<p>Students will be completing a full paper 1, this means that they will need to know all the information they have learned in Y10 to answer questions on 1A: Natural Hazards, 1B: Living world and 1C: Coastal and River landscapes in the UK</p> <p>Students will also need to know their information from 2A: Urban Issues and Challenges which they have learned at the beginning of Y11</p>	<p>Students will be completing a full paper 2, this will encompass 2A: Urban Issues and Challenges, 2B: Changing Economic World and 2C: Resources</p>	<ul style="list-style-type: none">• Revision lessons will be available in the assessment folder• Knowledge Organiser
